FISHING IN THE RIGHT SPOT?

Have you ever noticed a dejected fisherman sitting for hours, without even a nibble — and the small boy fifty feet away pulling in the big ones?

It's just a case of fishing in the right spot. The directory is the right spot for your advertising — it will produce the results — the big ones.

use your Directory—the RIGHT SPOT

A Summary

Suggested and Planned by American Community
Advertising Association

Adopted as a regular feature in all directories published by the
Association of North American Directory Publishers

Completed and Corrected Annually Through the Courtesy of The
Chamber of Commerce of the City of Newark, New Jersey

NEWARK, N. J.

Form of Government **Commission**

Population

U. S. Census 1950 457,877

Predominating Nationalities of Foreign-Born

Russian, Austrian, German, Irish, Italian, Polish

Area 23.57 sq. miles

Ship berthings in 1950 totaled 747 ocean steamship calls, representing 48 steamship lines. Port of New York Authority is undertaking extensive improvement projects on this harbor facility which had 1950 total ocean cargo of 1,687,967 tons.

Airport

Newark Airport, also operated under 50-year leasehold by the Port of New York Authority, is now working back to old distinction of world's busiest airport. Six trunk-line carriers, 2 local-service carriers, 3 all-cargo carriers and 1 resort-trip carrier, all certificated, plus many non-certificated passenger and cargo carriers, flew 100,778,908 lbs. of air cargo and 916,066 passengers from Newark Airport in 1950. Important enlargements are currently planned by Port of New York Authority.

Amusements—There are 120 amusement establishments.

Hospitals—City has 19 hospitals, including one municipal hospital and one Veterans Administration hospital.

Educational

Number of schools operated by Board of Education totals 75, attended in 1949 by 58,711 children studying under guidance of 2,400 teachers. Numerous parochial and private schools located in Newark, also Newark Colleges of Rutgers University, the State University of New Jersey, Newark College of Engineering, Newark State Teachers College, and Urban Division of Seton Hall University.

Public Library

There are 726,801 volumes in the Public Library and all branches. Circulation, 1,849,902 (1950).

City Statistics

Street mileage 380 with 367 miles paved, streets numbering 815 with 2,700 inter sections. Daily water consumption averages 84.2 million gallons, through 585 miles of mains. Fire Department employs 904 men with 35 engine companies, 15 hook and ladder companies, 2 fireboats, a rescue squad, an alarm telegraph system, and a training school. Police Department has uniformed personnel of 1,262 and 150 non-uniformed employees. Department contains headquarters, 6 precinct stations, emergency squad, radio station, detective bureau, missing persons bureau, police academy, laboratories and mounted squad. 138,000 electric meters and 119,000 gas meters in use in Newark. 7 radio stations and 1 television station.

History

Newark, county seat of Essex County and largest city of New Jersey (1950 Census 457,857) situated on Passaic River and Newark Bay, an arm of New York Bay, 8 miles west of New York, has 13 miles of water front, is a port of entry with deep-water harbor and river facilities. Lighterage service connects with New York Harbor Lines providing water, or rail and water facilities to all principal points. Area of city 236 square miles containing 367 miles of paved streets and 394 miles of sewers. Served by 5 trunk line railroads—Pennsylvania, Erie, Lackawanna, Lehigh Valley and Central Railroad of New Jersey, also near by connection with Baltimore and Ohio, Pennsylvania and Lackawanna electrically operated through the city. Hudson and Manhattan Railway (the Tubes) operating from Pennsylvania station, maintains day and night service between New York and Newark carrying about 75,000,000 passengers annually. Street passenger transportation by means of motor buses is augmented by City Subway (high-speed electric trolley subway) constructed in the City in bed of the Old Morris Canal operated by Public Service Corporation) extending from Pennsylvania station to suburban districts.

Newark is unique by reason of the number of inventive geniuses who were closely associated with its industrial development during their most productive periods. Such men as Seth Boyden (patent leather, malleable cast iron), John Wesley Hyatt (celluloid, roller bearings), Rev. Hannibal Goodwin (flexible film), Thomas A. Edison (electric storage battery, incandescent lamp, etc.), Edward Weston (electrical measuring instruments, generators, etc.), were outstanding individuals among scores of others whose inventions have changed the course of civilization and made American industry the world's leader. United States Patent Office records showed, some years ago, that Newark has contributed more useful inventions to industrial progress than any other American City.

A notable feature of Newark's industrial activity is the wide diversity of manufactured articles produced in large volume. Among the chief of these are Food products, chemicals and allied products including paints, varnishes, drugs, cosmetics; non-ferrous

metals and machinery is a major industry on an steel, except machinery, wearing apparel, textiles, machinery manufacturing, printing and publishing, leather, furniture and glass. Hundreds of products upwards of 100 distinct lines of manufacture have each a substantial output in excess of \$1,000,000. Many of these articles are the product of the city and the city remains the second principal center of production. The volume of the diversity of the industry and commerce has a direct bearing on the labor situation, setting considerable demand for employment conditions. It is the center of one of the nation's most intensively developed industrial, commercial or financial areas.

Newark is an important center for wholesale trade. In 1948 there were 1,496 establishments with 122 employees and net sales of \$117,733,000. Newark is New Jersey's principal retail trade center and its metropolitan department stores have nation-wide reputations. Retail trade establishments in 1948 numbered 7,248, with 32,789 employees and sales of \$2,817,930,000.

The city is one of the nation's leading warehousing and distributing centers, keeping a large stock of goods of southern production and shipment. Because of the extensive rail transportation facilities in the Newark area and its nearness to rich markets, many of the country's leading manufacturers store and distribute their goods from this point.

The city is the focal point of a comprehensive system of modern state and national highways leading to and from all transportation between it and all large eastern centers. Several of its trunk highways are marvels of modern super construction. The Lincoln Highway on which is the Passaic Skyway, passes over high level bridges across the Hackensack meadows, the Passaic and Hackensack Rivers, then through the Holland and Lincoln Tunnels under the Hudson River and makes motor car travel a matter of minutes only to or from Manhattan.

The Newark region, from the marshlands along the shores of Newark Bay and the Passaic River has achieved an important position in commerce and foreign water commerce. The Port of New York Authority, the seaport is undergoing extensive improvements, including completion of a 35-foot channel project. Newark Airport, 2,200 acres of land development under Port Authority plans, serves the metropolitan area and is a major air terminal. The new facilities of the New Jersey State Turnpike make Newark Airport even more accessible than before to uptown Manhattan.

The water supply of Newark is derived from municipally owned reservations water in mountainous strata extend from the city covering an area of 158 square miles. The reservoirs are the Pequannock and the Wanaque watersheds.

Newark has an extensive system of parks, many of them located near the heart of the city. Madison Park and Washington Park have historic interest as they were set apart by the early days of the settlement. Within the city limits, too, are Branch Brook, 257 acres, and Weequahic, 123 acres, parts of the Essex County Park system. Many notable monuments adorn the various parks, among them the equestrian statue of Washington, War of America by Gutzon Borglum, the famous seated Lincoln in County Court House Plaza, the statues of Sir Bowden, Frederick F. Frelinghuysen, General Philip Kearny, Abraham Lincoln, Columbus.

Among Newark's notable buildings are the City Hall, County Court House, Hall of Records, Public Library, New Jersey Historical Society Museum, Federal Building, the massive Presidential Grand Marine Monument, the American Life Public Service of N. J., N. J. Bell Telephone, National Newark and Essex Bank, Raymond Commerce, Federal Trust, and the Pennsylvania Railroad Station. The majority of them designed by local architects. Hospitals include Presbyterian, St. Michael's, St. Barnabas, Beth Israel, City, St. James, Newark Memorial.

and Eye and Ear infirmary, Hospital and Home for Crippled Children and Community Mental Hospitals of every denomination are represented in the city and many of the churches possess great architectural distinction. St. Patrick's and Trinity are respectively Roman Catholic and Protestant Episcopal Cathedrals. "Old First" (Presbyterian) has been a landmark since the earliest days of the settlement. Upwards of 35 hotels afford accommodation for family and transient business. Cultural, professional and social activities are promoted through a wide variety of clubs and associations.

Educational institutions include Newark Colleges of Rutgers University, Newark College of Engineering, State Teachers College, Urban Division of Seton Hall University and the Academy of Medicine of Northern New Jersey. The Public School System covers grades from Senior and Junior High, Elementary Schools, School of Fine and Industrial Art, and special schools and classes for the physically handicapped. Newark Public School Stadium, seating capacity about 14,000 is utilized by the Board of Education for part of each school year as a physical instruction. There is also an extensive system of Parochial Schools and movie theatres, including units of the large circuits, supply entertainment to devotees of the motion pictures. Local newspapers are Star Ledger (morning) daily and Sunday, Evening News daily and Sunday.

The Commissioners form of government was approved in Newark by referendum vote on April 9, 1916 to succeed the aldermanic system. Election for the first Board of City Commissioners was held November 13, 1917. Five Commissioners are elected for four years and select the Mayor from among their own members.

Newark is the financial metropolis of New Jersey. It contains the oldest chartered savings bank and the largest fiduciary institution in the State, Newark Caring House Association organized in 1922. Newark is also one of the foremost insurance centers in the United States. It was the birthplace of companies in the life, fire and casualty insurance field which pioneered a scientific insurance, whose business is today of world wide scope.

The Chamber of Commerce of the City of Newark was organized in 1868 and celebrated its twenty fifth anniversary in 1943, it occupies its own building erected in 1923.

Newark was settled in 1666 by a band of Puritan pioneers from the New Haven Colony in Milford, Connecticut, led by Captain Robert Treat. It was incorporated as a city in 1860 and was received by charter from the Legislature in 1857. The first settlers were interested wholly in agriculture, but, from the earliest days skilled craftsmen from the Old Country, bringing the tools of their trades, were attracted to the young community. These craftsmen were an important factor in determining Newark's future industrial trend as they developed a manufacturing nucleus while the nation was still in its swaddling clothes, and thus the foundations of Newark's reputation as an important industrial center. The City's position in this respect was firmly established by the middle of the 19th century, its progress since then, in volume and variety of manufactured products has been uninterrupted.

Compiled by:

CHAMBER OF COMMERCE OF THE CITY OF NEWARK, N. J.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest, then, a sympathy, then a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow beautiful, and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."

—John Cotton Dana.

CHAMBER OF COMMERCE

of the City of Newark, N. J.

Organized 1868

Chartered 1869

Organized to promote public affairs wherein they relate to the civic, industrial, mercantile and financial interests of Newark, by means of legitimate organized effort and co-operation.

"Organized Effort on Behalf of Our City"

The Chamber of Commerce is a non political non-sectarian organized association of civic minded businessmen working for the advancement of the public and commercial welfare of Newark. Members elect 25 directors (8 each year, plus executive vice-president). Committees study transportation, legislation, arbitration, foreign trade, highways, rivers and harbors, taxation and other problems facing the community. A large staff of trained personnel serves the members, making detailed studies and analyses of legislation and regulations providing members with other similar services they seek.

UNION NATIONAL BANK

a Newark institution . .

For over a quarter of a century the Union National Bank has served the people of Newark in a spirit of friendly cooperation that has earned for it the name of "The Friendly Bank For All The People." Throughout this time this bank has made it a practice to give as much attention to the so-called "little man" as to the larger depositor. Union National is one of the few independent banks left in Newark and is eager to do business with the small businessman.

Your particular need or needs may be included in the services listed. If you have a special problem, please do not hesitate to consult us. You'll find our executives friendly, easy to get along with, and generally interested in giving the best advice, based on their long years of successful experience. Drop in and see for yourself.

FISHING IN THE RIGHT SPOT?

Have you ever noticed a dejected fisherman sitting for hours, without even a nibble — and the small boy fifty feet away pulling in the big ones?

It's just a case of fishing in the right spot. The directory is the right spot for your advertising — it will produce the results — the big ones.

use your Directory—the RIGHT SPOT

Names Appearing In Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

Names Appearing In Black Letters

IN THIS DIRECTORY are the names of those people who **ACCOMPLISH THINGS** and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that **ENERGY AND PUSH** so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

with a new John Waltons Newark Airport

[illegible][illegible][illegible]

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \int_0^x f(t) dt$. It is shown that $f(x)$ is a continuous function and that $f(0) = 0$.

$\mathcal{A} = \{A_1, \dots, A_n\}$ is a family of n subsets of X .
 $\mathcal{A}$ is a σ -algebra if and only if:
 $X \in \mathcal{A}$ and $A \in \mathcal{A} \implies A^c \in \mathcal{A}$ and $\bigcup_{i=1}^{\infty} A_i \in \mathcal{A}$.
 $\mathcal{A}$ is a σ -algebra if and only if:
 $X \in \mathcal{A}$ and $\mathcal{A}$ is closed under countable unions and complements.

For all $\theta \in \mathbb{R}$, $\lambda \in \mathbb{R}$, V is a closed vector space
 Under the norm $\|\cdot\|_\infty$ of Hölder's ∞
 L^∞ -norm, $\|\cdot\|_\infty$ and $\|\cdot\|_1$ are dual norms

[illegible]

1. $\frac{1}{2} \frac{d}{dt} \int_{\mathbb{R}^n} |u|^2 dx = \int_{\mathbb{R}^n} u \Delta u dx = - \int_{\mathbb{R}^n} |\nabla u|^2 dx \leq 0$

$$J_{\lambda} = \frac{1}{2} \int_{\mathbb{R}^N} |\nabla u|^2 dx - \frac{1}{2} \int_{\mathbb{R}^N} u^2 dx - \frac{1}{2} \int_{\mathbb{R}^N} u^4 dx - \frac{1}{2} \int_{\mathbb{R}^N} u^6 dx$$

For $\alpha \in \mathbb{R}$, $(M_\alpha, \mathcal{E}_\alpha)$ and Hausdorff measure $\mathcal{H}_\alpha$ on $X_\alpha \subset \mathbb{R}^n$ are defined as follows: $\mathcal{E}_\alpha$ is the restriction of $\mathcal{E}$ to X_α and $\mathcal{H}_\alpha$ is the restriction of $\mathcal{H}$ to X_α . For $\alpha \in \mathbb{R}$, $\mathcal{E}_\alpha$ is a Borel measure on X_α and $\mathcal{H}_\alpha$ is a Borel measure on X_α . For $\alpha \in \mathbb{R}$, $\mathcal{E}_\alpha$ is a Borel measure on X_α and $\mathcal{H}_\alpha$ is a Borel measure on X_α .

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

$\frac{1}{2} \frac{d}{dt} \int_{\mathbb{R}^n} |\nabla u|^2 dx = \int_{\mathbb{R}^n} \nabla u \cdot \nabla u_t dx = \int_{\mathbb{R}^n} \nabla u \cdot \nabla (-\Delta u) dx = - \int_{\mathbb{R}^n} \Delta u \Delta u dx = - \int_{\mathbb{R}^n} |\Delta u|^2 dx \leq 0$

解: 因为 $\lim_{x \rightarrow 0} \frac{f(x)}{x} = 1$, 所以 $\lim_{x \rightarrow 0} \frac{f(x)}{x^2} = \lim_{x \rightarrow 0} \frac{1}{x} = \infty$, 故 $\lim_{x \rightarrow 0} \frac{f(x)}{x^2} = \infty$.

1951—THE PRICE & LEE CO.'S

[illegible][illegible]

The map shows the northern Adriatic coastline of Italy. Sampling stations are indicated by numbers 1 through 10. Station 1 is located near the Gulf of Genoa. Stations 2 through 10 are distributed along the coast from Liguria to the Marche region. The map includes a scale bar from 0 to 100 km and latitude/longitude markings.

The following table shows the results of the survey of the 100 most common birds in the United States, as determined by the American Ornithologists Union. The table is arranged in alphabetical order of the birds, and the numbers in parentheses indicate the number of species of each bird that were found in the United States.

ΣΕΣΟΝΕ

[illegible]

$\frac{d}{dt} \left(\frac{\partial L}{\partial \dot{x}} \right) = \frac{\partial L}{\partial x}$

$$\frac{d}{dt} \left(\frac{\partial L}{\partial \dot{x}} \right) = \frac{\partial L}{\partial x}$$

The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$. It is shown that the solutions of the system (1) are bounded and tend to zero as $t \rightarrow \infty$. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow 0$. It is shown that the solutions of the system (1) are bounded and tend to zero as $t \rightarrow 0$.

$\frac{d}{dt} \left(\frac{\partial L}{\partial \dot{x}} \right) = \frac{\partial L}{\partial x}$

Tolson L. Collier Met March 1937 78 1/2 W Kinney

$$c = \frac{1}{\sqrt{\mu_0}} \left(\frac{M_{\text{eff}}}{M} \right)^{-1/2} \left(\frac{h^2}{2m_e} \right)^{1/2} \left(\frac{W}{eV} \right)^{1/2}$$

1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and network architecture.

1. The first group of people who are not allowed to use the Internet are those who are under 18 years old. This is because the Internet is a dangerous place for children, and they may be exposed to inappropriate content or even predators.

1. The first group of authors (e.g., [1, 2]) considers the problem of the stability of the motion of a system of particles in the field of a central body. The results of these studies are used in the theory of the motion of celestial bodies.

1. The first group of authors (e.g., [1, 2]) considers the problem of the stability of the motion of a system of particles in the field of a central body. The results of the calculations show that the motion of a system of particles is stable in the field of a central body.

$$\mathbf{S}_{k+1} = \mathbf{S}_k + \mathbf{R}_k \mathbf{R}_k^T / \|\mathbf{R}_k\|^2$$

James
in James

1. The first group of variables includes the following:

$\frac{1}{2} \left(\frac{1}{2} + \frac{1}{2} \right) = \frac{1}{2}$

$$\frac{1}{N_1 + N_2 + 1} \left(\frac{1}{N_1 + 1} + \frac{1}{N_2 + 1} \right) = \frac{1}{N_1 + N_2 + 1} \left(\frac{1}{N_1 + 1} + \frac{1}{N_2 + 1} \right)$$

1. Mary ...

$\frac{1}{2} \left(\frac{1}{2} \right) = \frac{1}{4}$

KELLY'S ORANGE AWNING CO., INC.
 AWNINGS — FLAGS — CANOPIES — ORCHESTRA STANDS

Est. 1885 17-19 Canfield St.
 Orange, N. J. — OR. 3-0145

**Don't Contribute
to
Counterfeiters
KNOW YOUR
MONEY!**

**Don't Be Fooled
by
Forgers
KNOW YOUR
ENDORSERS!**

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced

PAPER *Counterfeit*—Generally has no silk threads but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit, ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice" adopted at the inception of the Association of North American Directory Publishers in 1896, and strictly adhered to ever the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it and to treat additions, listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain, to study public needs and make Directories to supply them, to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

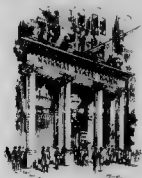

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directory.

Association of North American Directory Publishers

16th Floor, 244 Madison Ave.

New York 16, N. Y.

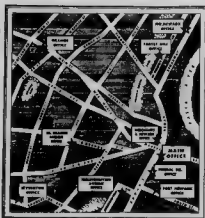

Established 1812

NO matter what your banking problem . . . personal or business . . . you'll find your solution at **NATIONAL STATE BANK OF NEWARK**, because **NATIONAL STATE** provides . . .

A WEALTH OF BUSINESS EXPERIENCE
Over 100,000 businesses and individuals, large and small, national and local, are **NATIONAL STATE** customers. Almost every type of industrial concern, from oil refiner to auto manufacturer, is represented in our list of clients.

A WIDE RANGE OF SERVICES You can deposit \$1 or \$1,000,000 . . . open a savings account . . . borrow at low bank rates for private business purposes. . . set up a personal trust fund . . . or an employee pension plan . . . get letters of credit to correspondent banks here and overseas . . . and rent a safe deposit box for as little as \$5 a year.

*And remember this! Regardless of the size of your account or the volume of your business with us, you always get prompt, efficient and courteous service from **NATIONAL STATE BANK OF NEWARK**. Ten convenient offices. Come on — at your convenience. We'll be glad to serve you.*

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** ~ aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

JANUARY 8, 1946

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.

PALUMBO BROS. INC.

**SPECIALIZING IN CADMIUM
& NICKEL ELECTRO PLATING
PRODUCTION WORK**

Government Specification Work a Specialty
